HIPAA Compliance

ISO Compliance

mymedicalimages.com is committed to quality and technology advancement of the products we develop. To that end, we strive to exceed the quality requirements set forth by the FDA in 21 CFR 820 (Quality System Regulation) by developing our products under a quality system that is ISO 13485:2016 (Medical devices – Quality management systems –Requirements for regulatory purposes) compliant.

DICOM Conformance Statement

This DICOM conformance statement applies to mymedicalimages.com v1.0.

mymedicalimages.com is software as a service platform that allows users to securely view, store, and manage DICOM images.

mymedicalimages.com provides the following:

- **a zero install, web-based image viewer for DICOM images**
- **secure storage of DICOM images and attached files**
- **importing of DICOM data from a file system or CD**
- **receiving DICOM images from a remote AE**

mymedicalimages.com conforms to the DICOM PS3.1 2018d standard.

HIPAA Compliance

To ensure users of mymedicalimages the highest level of level of Availability, Confidentiality, and Integrity of their images and Protected Health Information (PHI), we have integrated the appropriate levels of the Health Insurance Portability and Accountability Act (HIPAA) compliant strategies to the viewing, managing and storing of

their data. From the ground up, our cloud-based storage, retrieval, and access system utilizes the fully ISO/IEC 27001:2013 (Information technology – Security techniques – Information security management systems) Amazon web services to provide a robust, secure and compliant solution. We are committed to the security and privacy of our user's data and continuously strive to improve our product and advance the services we provide.
